

Tow-a-Van Trailers

Price List
April 2011

Clean lines, robust construction and ease of use are the principal design features of the Tow-a-Van. The rounded corners at the sides and around the roof are aluminium. The side panels are aluminium coated so are extremely light yet highly durable. The metallic finish is unique to the Tow-a-Van range. Indespension SuperRide suspension ensures smooth, stable towing even when the trailer is empty. Features such as the protected rear light clusters, stainless steel door fittings and anti-theft TripleLock hitch all help to make Tow-a-Van a pleasure to use and easy to maintain*.

SPECIFICATION						OPTIONAL EXTRAS
